*The fuel consumption and emission values provided are calculated using the Worldwide Harmonised Light Vehicles Test Procedure (WLTP). WLTP is the new official test regime for passenger cars replacing the New European Driving Cycle (NEDC). Figures shown are for comparability purposes; only compare fuel consumption and CO₂ figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load. Prices and specifications are accurate at time of publication – August 2021. We reserve the right to make changes at any time, without notice, to prices, colour, materials, specifications and models.
